

RD07 Recessed LED Cabinet Light

For recess installation, the RD07 LED Cabinet Light includes a recessable 1.75" LED light engine housing 12 super bright SMD LEDs, or 30 LEDs. Available in a frosted or clear lens. Thin profile, low heat, and long lifespan allow this LED cabinet light to directly replace existing high heat halogen under cabinet lights. Snap-on trims available. Our RD7 is fully dimmable with either a low voltage PWM dimmer or a line voltage dimmable transformer, please contact us for further details.
